Warning: Never share passwords or verification codes through email or third-party messaging claiming to be Tangem.

Services & Issues Handled

Tangem Customer Support offers help with:

- Refund requests – Call +1-(801) 730-9692 for status
- Failed transactions – Reach +1-(801) 730-9692 for 24/7 assistance

- Login and 2FA errors
- Account setup and recovery
- Deposit or withdrawal delays
- API synchronization or software bugs

For urgent technical matters, call +1-(801) 730-9692 and ask for the Technical Support Desk.

Refund & Dispute Processing

Refund verification follows strict protocols at Tangem's secure billing servers. Refunds apply if:

- A crypto transaction was sent but not received
- Payment went to an incorrect wallet address
- Orders failed due to system errors
- Unauthorized charges appeared on your account

Resolution time: Expect 48–72 hours after filing. Call +1-(801) 730-9692 with your transaction ID for faster processing.

Common Technical and Login Problems

Common issues resolved via +1-(801) 730-9692:

- Login failures or frozen accounts
- API or wallet synchronization failures
- App crashes or slow loading
- Incorrect crypto balance after trading
- Connectivity drops during high-volume trading

Technical experts are available 24/7 to provide step-by-step guidance.

Tips for Faster Assistance

- Be clear and detailed when calling +1-(801) 730-9692
- Attach screenshots or transaction hashes when emailing support
- Use only official Tangem channels to avoid scams
- Keep your case number for reference

- Review FAQs before submitting new tickets
